Why do I like to buy things in the Jingdong, because I can get it tomorrow. Why do I have the same evaluation for each commodity? Because too many purchases in Jingdong have resulted in a lot of unevaluated orders, so I use the duer as an evaluation content, saving time and effort and getting Jingdong beans. In a word, in a word, in a word, it is good and fast to buy things in the Jingdong! Why do I like to buy things in the Jingdong, because I can get it tomorrow!
